INTRODUCTION

Imam Amir - ul - Mumineen Ali (A.S.) said:

"The worth of every man is in his attainments." Nahjul Balaghah, Saying No.482

Note: The real value of a person is in his knowledge (and the perfection of his attainments). His worth and position would be in accordance with the status of knowledge and attainments he holds. Eyes that are conscious of real values do not look at the face, features, tallness of stature, size or worldly pomp and position but look at the attainments of a person and assess his worth according to these attainments. The conclusion is that a man should strive to acquire distinction and knowledge.

The worth of every person is according to the extent of his knowledge.

Ghurar -ul- Hakam, p. 341

With an aim to increase the educational level of the students of the community the institution has been serving the Society in different areas of education (both school and Arabic classes as well) since 1975. Institution started with a very limited work of textbook distribution. The institution gradually increased the works step by step, firstly giving educational aid then administrating different Arabic classes all over Gujarat, starting tuition classes, imparting computer education and building a community hostel. More than 15 Youths of our community have been serving the society under the guardianship of IMAM-E- ZAMANA. (A.S.)

As the small plant has grown to a huge tree we thank to Almighty Allah and pray to Him to strengthen this tree and make it a cool and shadowed place for the entire community.

(B) ZAINABIYA INSTITUTE**INTRODUCTION: -**

Imam Amir - ul - Mumineen Ali (A.S.) said:

"One who seek knowledge is like a warrior in the cause of religion for the way of Allah." Bihar-ul-Anwar, Vol. 1, P. 179

To create awareness and develop importance of education in the students this center is imparting extra coaching to the students of secondary school from 1st Std. to 10th Std. along with planned Dini Talim and vocational guidance in an organized playful environment. Students are provided such training for three periods, comprising 45 minutes each day. We have planned to provide education along with practical using modern laboratory equipment and vocational guidance as far as possible.

NEED OF THE PROJECT: - Present efforts of the HEWST like financial aid under ZCCS, Providing textbooks, circular library, coaching classes activities were sufficient for carrying out their studies without any economical hurdles. But this dose not make them to acquire education up to their level best because of many reasons viz.:

- * Lack of family background, as most of parents are illiterate.
- * Economic hardship of the family which compel them to contribute students time in earning.
- * Ignorance of parents about the values of the Dini and school education.
- * Careless response of the parents of family members towards the child response.

And such many more.

AIM: - To uplift the level of the education of the children of our community to the level best individually. Each of them must be given in an organized play environment under specialized personal guidance with the help of modern teaching aids at a centralized place.

PHILOSOPHY BEHIND THE PROJECT: - To make the students learn.

This will lead to help a child to acquire knowledge according to his capability. They would be made aware of values of the education, encouraged for their achievements and consoled for their failure within an enthusiasm of coming out with an added color.

(C) MURTUZA COMPUTER ACADEMY

INTRODUCTION: - In tradition it is said that "Train your children according to their age". To train the community students according to their current age. This center was established on 15th Shaban H.S. 1415 with one computer system. Now it has grown up and comprises 12 systems.

AIM: - Aim of the MCA is to provide comprehensive computer education with the enhanced practical training to the youth of our community.

PURPOSE OF THE ESTABLISHMENT: - Computers are fast growing technology and is now being applied to all the fields of life. It has become a very prospective square oriented field. Many private institution are providing such training but at a higher rates of Rs. 1500/- per month for such training. These institutes are totally professionals and their teaching medium is English. Both the aspects are hard barriers for our students to enroll.

To overcome the above barriers MCA was established with only one system, which has grown upto 12 systems. In the year 2006-2007 total 99 students have completed their training during the present year, which also includes girls.

Seeing a long distance and a rural area, which needs awareness in computers, a computer system has been given to Bharatnagar Tuition Class, which has developed a high interest in students for computer education. More and more students are coming up to join MCA. We have received good results year by year.

We are planning to develop MCA up to the accredited levels to tie up with some franchisee in future.

(3) FUTURE DEVELOPMENT PROGRAMS

(A) COMMUNITY HOSTEL:-

(This project is accredited and passed by Alhaj Huseinali Pariyani, Sajjadiya Trust, Canada.)

Bhavnagar is one of the centers for education facilities in Gujarat. Bhavnagar has its own University where many higher educational courses are being conducted in various colleges such as Medical college, Engineering college, Law college etc. Further more it has Gujarat State Government Institutes like Polytechnic Institute, Industrial training Inst. Aryued Mahavidyalay etc.

Many students of our community, from Bhavnagar and other cities/towns of Gujarat get their admission in these collages or institutes according to their qualifications. After finishing hard task of getting admission in their selected branches out station students have to face a harder task to get admission in any Govt. hostel (if accommodation is available) which is too difficult due to shortage of accommodation the lot of applications. So the students have to go for community hostel or for private room which even a higher middle class student cannot afford the rent of it. As far as the community is concerned unfortunately our Shia Ithna Ashari community did not have its own Hostel. There's only one Muslim Hostel i.e. Memon Boarding, where hardly few of our students can get an admission. But after getting admission they have to observe many restrictions. A simple

and tragic example is that they cannot offer Namaz on sijdagah (Khaq e Shafa). Those who get admission at Government or other hostels have to struggle for Taharat and against nuisance of slung language, drug addicted neighbour or a partner, urchins or even communal disharmony.

Considering all the above points and repeated requests from the group of (out station) students, Members of Husaini Education & Welfare Society Trust were encouraged to plan to have our community hostel in Bhavnagar.

By the Grace of Almighty Allah and support of Sajjadiya Trust, Canada construction of the new hostel was completed with all the latest facilities and favourable study environment. Students have shifted to new hostel and they are satisfied with the same.
